Honda
Passport

There comes a point in everyone's life when you just want to escape. To say goodbye to your daily routine and go someplace new. To find that lost sense of adventure. For you, that time is now. That's why you're drawn to the Honda Passport. A powerful sport-utility vehicle whose very name says escape, travel and, of course, adventure. It's tough enough to take you just about anywhere you want to go. And, it's designed not only to be powerful but to be comfortable. So sit back, relax and turn the page. It's time to plan your getaway.

Over the river and through the woods,
go where **you** want to go.

Passport 4WD EX with Luxury Package shown in Bright Silver Metallic over Iron Gray Metallic.

2WD LX: The 2WD LX comes with a variety of terrific features.

A powerful 205-horsepower, 3.2 liter, 24-valve, DOHC V-6 engine, front double wishbone suspension, an anti-lock braking system (ABS), cruise control, air conditioning, power windows, mirrors and door locks, floor mats, front and rear 12-volt accessory outlets, dual illuminated vanity mirrors, AM/FM stereo cassette with 8 speakers, child-proof rear door locks, rear window wiper/washer, variable-assist power rack-and-pinion steering and a reclining 60/40 split fold-down rear seatback.

4WD LX: Our 4WD LX also comes with a variety of great features. There's a shift-on-the-fly 4-wheel-drive system, aluminum-alloy wheels, a limited-slip differential and 4-wheel disc brakes with ABS.

2WD EX: Our 2WD EX comes with a standard 4-speed automatic transmission, power moonroof with tilt feature, aluminum-alloy wheels, fog lights, rear privacy glass, a leather-wrapped 4-spoke steering wheel, simulated wood-grain interior trim, dual heated power mirrors and security system with remote entry.

4WD EX: The 4WD EX also has shift-on-the-fly 4WD, a limited-slip differential and 4-wheel disc brakes with ABS.

So many models, so little time.

LUXURY PACKAGE*: The Luxury Package is the ultimate in sophisticated travel. Adding to the 2WD and 4WD EX models, you'll find leather-trimmed seats and door panels, an AM/FM stereo cassette with 6-disc in-dash CD changer, a 4-way adjustable power driver's seat, exclusive two-tone paint, body side moldings and fender flares.

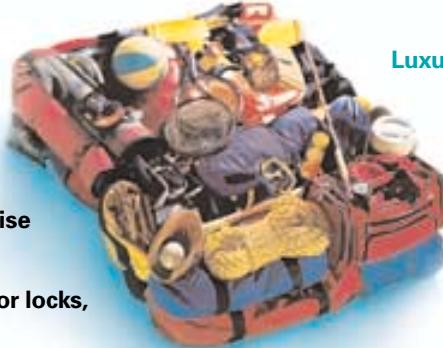

It's hard to decide which view is more **spectacular**.

Passport 4WD EX with Luxury Package shown in Ebony Black over Fawn Metallic.

While the Passport's exterior is designed to handle the rain, sleet and snow, its interior is designed to make you feel relaxed and comfortable. **Comfort and luxury rule** in its spacious, well-appointed cabin. Honda ergonomics are a testament to logic. Everything is where it should be. Air conditioning, cruise control, power windows and door locks, convenient beverage holders and plenty of storage pockets that just add to the pleasure of driving your Passport. The multi-position adjustable second-row seat and a 60/40 split fold-down rear seatback offer lots of room for

friends or stuff. (Whichever you happen to have more of.) On the EX, the power moonroof with tilt feature, leather-wrapped steering wheel and beautiful simulated wood-grain trim will please your sense of style. While the **Luxury Package** takes it a step further with a rich, leather-trimmed interior, a cool AM/FM stereo cassette with 6-disc in-dash CD changer and a 4-way adjustable power driver's seat for a custom fit. The Passport's long list of amenities looks impressive on paper. Wait until you're on the open road and experience them for yourself.

Passport 4WD EX with Luxury Package interior shown in Beige leather trim.

The Passport EX comes with a very handy **security system** with remote entry. It not only helps deter theft, but also allows you to lock and unlock your doors from as far away as 30 feet.

The precision of the standard **electronic-integrated cruise control** means it's even easier to sit back, relax and enjoy the ride.

Dashing through the snow. Laughing all the way.

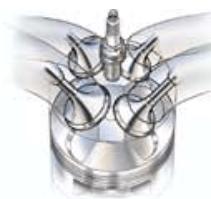

Passport 4WD LX shown in Bright Silver Metallic. Honda reminds you to "Tread Lightly!"®

With **eight inches of ground clearance** and a rugged coil-spring rear suspension, the Passport can get you to some definitely out-of-the-way places. Gas-pressurized shock absorbers keep everything under control, on or off the road.

Keep right on going. When you need more traction, the Passport's versatile **shift-on-the-fly 4-wheel-drive system** lets you distribute power and traction to all four wheels, without having to stop.

The 3.2 liter Passport engine's highly efficient **4-valve combustion chambers** help spread torque over a broad range of engine speeds. That means there's plenty of power and torque for climbing grades, passing or merging with traffic.

Versatile, capable and tough, the Passport has been engineered from the ground up for an active lifestyle. Its 205-hp, 3.2 liter, 24-valve engine produces 214 lb.-ft. of torque and also runs so clean that the Passport qualifies as a Low-Emission Vehicle (LEV).

Boats, travel trailer, motorcycles...With its standard **3,500 lbs. towing capacity** (4,500 maximum[†]), the Passport is up to the job of towing your favorite toys.

Drive-by-wire throttle control and a 32-bit-processor engine-management system optimize response and performance. Passport's available 4-speed automatic transmission features a lockup torque converter and overdrive, which makes highway cruising more economical. The transmission's "Winter" setting helps reduce wheel spin when starting from a stop on snow or ice. And the "Power" setting lets the transmission downshift sooner and upshift later, for faster acceleration. If the road gets a little "challenging," the added capabilities of a limited-slip differential and high- and low-range shift-on-the-fly 4-wheel drive (4WD LX, EX) give you optimal traction in almost any condition. Front double wishbone and rear coil-spring suspension give it a smooth, controlled ride regardless of road conditions, and variable-assist power rack-and-pinion steering takes the effort out of maneuvering and parking. Remember: Honda asks you to respect the environment, so that others may enjoy it, too. Tread Lightly!® on public and private land.

Important safety features like **dual front airbags (SRS)**[‡] are standard on every Passport. They provide additional protection in the event of a significant full-frontal impact.

Passport 4WD LX shown in Palazzo Red Mica.

The Passport's body-on-frame construction helps form **a strong safety cage** for its passengers, while crush zones and side-impact beams in the doors help absorb impact energy.

Rain, snow, potholes, other drivers... There are a lot of reasons you may need the **safety and security of a Passport**. Its tall stance gives you excellent outward visibility in all directions and makes it easier for others to see you. A 4-wheel anti-lock braking system (ABS) is standard on all models. So are mud- and snow-rated tires, as well as skid plates under the radiator and fuel tank (and transfer case on 4WD models). The body-on-frame construction of the Passport has been reinforced in key areas for added strength, forming a strong safety cage for the driver and passengers. Impact-energy-absorbing crush zones are built into the front and rear, and steel beams in the doors help protect in the event of a side impact. Inside, there's a complete list of **safety features**, including dual airbags;[‡] 3-point seat belts at all outboard seating positions (the center-rear seat position has a lap belt), adjustable head restraints and child-proof rear door locks. Auto-locking seat belt retractors and the LATCH (Lower Anchors and Tethers for Children) system make installing a compatible child seat quick and easy.

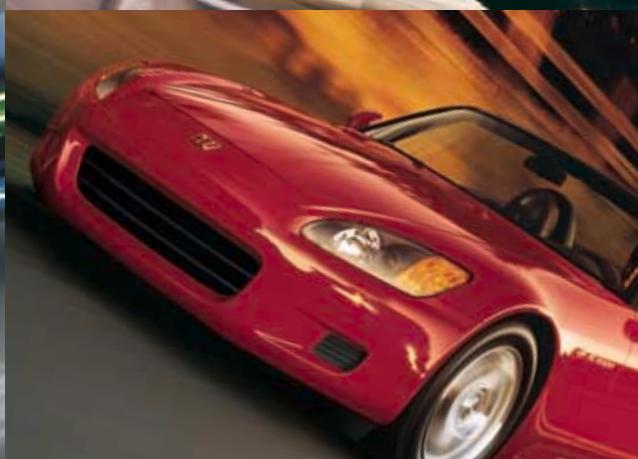

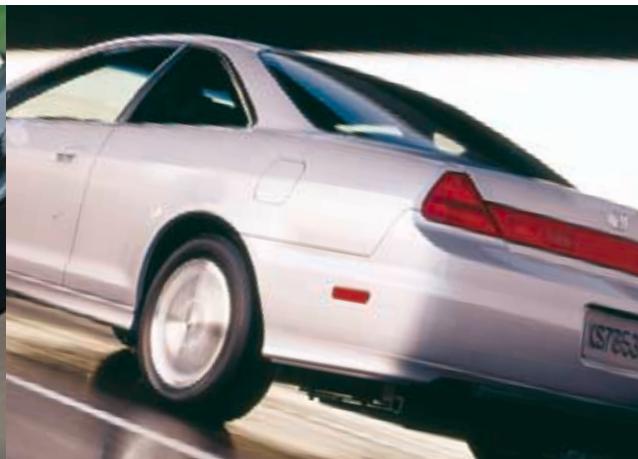

‡Honda reminds you and your passengers to always buckle up.

A standard **4-wheel anti-lock braking system (ABS)** helps you retain steering control and maneuverability during heavy braking or on slippery surfaces.

Dual heated power mirrors (EX) clear ice, snow and mist for better visibility. A rear window wiper/washer, halogen headlights and all-season mud- and snow-rated tires are all standard.

For years, [Honda has led the industry](#) in reducing the impact automobiles have on the environment. Proving that it can be done with little sacrifice to performance. In 1975, we introduced the innovative Civic CVCC, the first car to pass the federal Clean Air Act standards without the use of a catalytic converter. Ever since, our engineers have pushed the limits of design. When California's standards for Low-, Ultra-

Low- and Super Ultra-Low-Emission Vehicles (LEV, ULEV and SULEV) were introduced over the past seven years, a Honda was the first gasoline-powered car to meet each one. In fact, we have met these government standards before they

were mandatory. While all Civics are now ULEV or better, every Honda does its part. From the natural-gas Civic GX, the cleanest internal combustion production-engine vehicle ever built, to the LEV-rated 240-hp S2000 roadster. With our track

record, it's only fitting that we would be the first to introduce a gasoline-electric-powered hybrid car in the United States: the Insight. This ultra-low-emission vehicle

was the first car to receive the [Excellence in Environmental Engineering Award](#) from the Sierra Club. Honda will continue to lead the way in providing you with some of the most advanced and cleanest vehicles on the road today.

When you buy a new Honda, a team of **dedicated professionals** is standing by to assist you. Your dealer can help personalize

your Honda with a wide assortment of Genuine Honda Accessories. Have them installed at the time of purchase and they're covered by the 3-year/36,000-mile limited warranty.* And our Honda-trained technicians are available to help you take care of your new car. With their vast **expertise and knowledge**, they'll be able to help keep your vehicle in excellent condition. After all, no one knows your Honda better. If you'd like additional information, call us at 1-800-33-HONDA. Or visit our Web site at honda.com. If you're looking for quality, dependability and exceptional service, it's time for a Honda.

HONDA Finance

If you want quality service and dependable nationwide support, turn to **American Honda Finance Corporation**. They can assist you with your next purchase of a Honda automobile or product.

Help protect your vehicle from unsightly side nicks and scratches with **running boards.^{†‡}** Custom-designed, they feature a durable aluminum substructure that is both corrosion- and rust-resistant.

HONDA Care

Honda Care is a comprehensive, affordable vehicle and travel protection plan that is backed by Honda reliability, service and parts. Check with your dealer for additional information.

Bumper trim, crafted of steel tubing, will help protect your bumper when driving off-road. Custom-made and easy to install, it's designed to complement your vehicle's rugged, sporty look.

Other available accessories:

- 6-Disc In-Dash CD Changer
- Trailer Hitch
- Nose Mask (Full and Half)
- CD Player
- Armrest Pad
- Fog Lights
